As pointed out by the Applicants in the Remark that the cited prior art (Nagata et al. [5,787,288]) taken alone or in combination fail to teach, in combination with the other claimed limitations, *a rewriter adapted to rewrite said storage unit to update a current version of the control program to said new version of the control program; a remapping portion that remaps data used by said current version of the control program based on said new data mapping information, so that data remapped by the remapping portion is capable of being used by said new version of said control program; and a controller for executing said new version of the control program stored in said storage unit* as recited in the independent claims 22, 28, and 33.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
